

Honey Guacamole [from the National Honey Board]

Ingredients:

2 ripe avocados, peeled, pitted, mashed

1 Tb. lemon juice [lime is a tart alternative & good offset to the overall sweetness, if desired]

1 Tb. HONEY

1/3 cup red onions or Walla Walla sweets, diced finely *[original recipe calls for ¼ cup cilantro, 1/4 cup - but for our taste, the cilantro just really doesn't work texture-wise unless you blend the lot, and then you lose the lovely chunky fresh texture of the dip]*

salt to taste
